● SKILLS

Programming: C# | .NET | SQL | JavaScript | TypeScript | Python | Java | Blazor | Angular | React | Next JS | Node JS |
Methodologies: SOLID | Clean Code | TDD | BDD | SCRUM | Kanban |
Architecture: Microservices | Monolithic | Clean Architecture | NService Bus | RabbitMQ | API | WCF |
Others: Azure | Git | CI/CD | Jenkins | Jasmine | Docker | Cucumber | Jest |
Soft: Communication, Collaboration, Problem-Solving, Adaptability, Mentorship
Languages: Portuguese (Native), English (Fluent), Spanish (Basic), Japanese (Basic)

● EXPERIENCE

Senior Developer   **| Programmers (Contractor at Press Ganey) |** *Remote* **| 08/2019 - Present**

- Built a web application enabling parallel client configuration, reducing setup time and streamlining onboarding. ***Angular | C# | .NET | SQL Server | DB2 | NService Bus | API Rest |***
- Redesigned survey system flow to integrate multi-partner data, contributing to $2M+ in new revenue. ***C# | .NET | NService Bus | Azure |***
- Created high-performance console apps to update 18M+ records with minimal downtime. ***C# | .NET | SQL Server | DB2 | API Rest |***
- Implemented dynamic logo support across multiple services, improving branding flexibility at scale. ***C# | WPF | MVVC | NService Bus | SQL Server | DB2 |***
- Developed a web platform enabling service-specific updates and configuration testing for thousands of patients. ***C# | Blazor | SQL Service | RabbitMQ***
- Worked closely with team members through pair programming and client interactions to ensure timely, high-quality project delivery.

Software Developer   **| Resource IT (Contractor at Liberty Mutual Insurance) |** *Sao Paulo - SP* **| 06/2019 - 08/2019**

- Developed a web-based home insurance quoting application, focusing on the implementation of the core calculation engine. ***Java | Javascript | IBM ODM | Mongo DB | JQuery***
- Collaborated with team members to define technical solutions and regularly engaged in pair programming to improve code quality.

Software Developer   **| GTI Solutions (Contractor at AIG Insurance) |** *Sao Paulo - SP* **| 03/2018 - 06/2019**

- Redesigned and rebuilt the insurance portal, enabling users to quote multiple insurance products through a unified interface. ***Angular | C# | SQL Server |***
- Built a single-page web application for secure and streamlined insurance policy file downloads. ***AngularJS | node |***
- Architected a unified authentication solution, enabling seamless user login across multiple internal systems. ***C# | .NET | SQL Server | WPF |***

Software Developer   **| Politran Technology and System's Ltda |** *Sao Paulo - SP* **| 04/2017 - 03/2018**

- Refactored a desktop application for weigh stations, enhancing user experience, improving ticket reporting, and implementing updated compliance regulations. ***C# | SQL Server | Crystal Reports |***
- Collaborated with clients to gather and refine system requirements, ensuring alignment with business needs.

● EDUCATION

- **Postgraduate Certificate**   **| Estácio |** *Campinas - SP* **| 01/2020 - 06/2021**
  - **Software Engineering**
- **Bachelor's Degree**   **| FATEC |** *Bragança Paulista - SP* **| 01/2013 - 06/2016**
  - **Information Technology Management**

● PROJECTS

- **English Time:** *[Internal program]* - Developed a weekly program designed to develop the staff's English skills. ***(2020 - Present)***
- **Value Delivery:** *[Internal application]* - Built a Power Apps tool to log client value delivery and auto-notify sales/management via Teams, enhancing visibility, alignment, and marketing opportunities. ***Power Apps | Teams app | (05/2025)***
- **My Legacy:** *[Internal application - In progress]* – Power Apps tool to log employee contributions and automatically notify management via Teams, enhancing visibility of extra efforts and achievements. ***Power Apps | Teams app | (05/2025 - Present)***
- **Pi Levels:** *[Internal application]* - Developed an application to guide employee upskilling through structured learning tracks. Supported team growth by mapping skill trails to career paths. ***C# | .NET | Blazor | Teams app | (04/2025)***
- **Super Training:** *[Personal project - In progress]* - Web application to manage and log training sessions. Designed to support individuals in tracking development activities and training history. ***C# | .NET | Node JS | Blazor | API REST | Microservices | Docker | (07/2024 - Present)***
- **Check For Secrets:** *[Personal project]* – Created a CLI tool to help developers detect and prevent accidental exposure of secrets (e.g., API keys, credentials) in code before publishing. ***JavaScript | Next JS | (01/2025)***

● ACHIEVEMENTS

- **Co-Author, Published Book:** *Management and Technology: Reflections and Practices.* ***(2018)***
- **Conference Presenter:** *Presented an article at EGeT - Symposium of Excellence in IT Management (Rio de Janeiro), focused on smart strategies for multiplatform mobile app development.* ***(2017)***
- **Exchange Program Winner:** *Awarded first place in a competitive program; studied English as a Second Language at Midwestern Career College, Chicago (3 months).* ***(11/2022)***
- **IELTS Academic:** *Overall Band Score: 7.0* ***(10/2024)***
- **Microsoft Certified:** *AZ-900 - Microsoft Azure Fundamentals* ***(10/2021)*** *| AZ-204 - Developing Solutions for Microsoft Azure.* ***(12/2021)***
